

To whom it May concern,

Kinetic Electrical Ltd recently completed the electrical installation works at the new Ovation New Zealand Limited Boning facility in Feilding. Ebert Construction was the main contractor on this project and we very impressed with the way they managed and executed the entire process in what was a very tight time frame. The work was completed to a very high standard and the entire team was a pleasure to work with.

We would have no hesitation in recommending Kinetic Electrical for future contracts.

Yours Faithfully
for Ebert Construction Ltd
